

# Lead Me to the Light

Words and Music by Kyle Hancharick, Douglas Q. Hutchings and Francis Zelinka

Hiding away  
From the light of day  
Darkness has overcome  
Every part of me

Time moved on  
And I had succumb  
To the loneliness that sets in  
When you're on your own

Then you came and caught me by surprise  
Gliding down a ray of light into my life

So, lead me to the Light  
Show me to the Truth  
And I'll show it back to you  
When you need me to (repeat)

This world we're in is  
A scary place to live  
It's easy to lose sight  
Of the important things

But there's safe shelter  
In the shade of one another  
We've been through the storm  
Rejoiced on the other side

Cause you came and caught me by surprise  
Gliding down a ray of light into my life

So, lead me to the Light  
Show me to the Truth  
And I'll show it back to you  
When you need me to (repeat)
