

I Will Go

Words and Music by Kyle Hancharick and Douglas Q. Hutchings

Take a look into my past
And take a look again
Now I can see that everything
Worked out fine in the end

So I will follow your call
And walk in faithfulness

The road is dark and dusty
But I will go where you lead
I don't know where you'll take me
But I will go where you lead

Life can be a mystery
The future is unclear
We all have a purpose
And a reason why we're here

So I will follow your call
And walk in faithfulness

The road is dark and dusty
But I will go where you lead
I don't know where you'll take me
But I will go where you lead

When I took my first breath
I breathed you in
When I spoke my first words
I felt you again
Now that I'm older
I know who I am
I'm ready to follow
And trust in your plan

The road is dark and dusty
But I will go where you lead
I don't know where you'll take me
But I will go where you lead (repeat)

Take a look into my past
And take a look again
I can see that everything
Worked out fine in the end.
